

Major scale cheat sheet

Align the base note with the red square.

Print out twice if you want to use with sharp and flat keys. Cut along the blue lines, punch a hole in the middle and combine with one of the note name circles with a clip

Natural minor scale cheat sheet

Align the base note with the red square.

Print out twice if you want to use with sharp and flat keys.

Harmonic minor scale cheat sheet

Align the base note with the red square.

Print out twice if you want to use with sharp and flat keys.

Melodic minor scale cheat sheet

Align the base note with the red square.

Print out twice if you want to use with sharp and flat keys.

Note names flat keys

Please note that C^b and F^b are not marked as note names – which means that while the pitch would still be the same the note names are no longer all correct for keys with more than 5 flats.

Note names sharp keys

Please note that B \sharp and E \sharp are not marked as note names – which means that while the pitch would still be the same the note names are no longer all correct for keys with more than 5 sharps.
